

## MITSUBISHI GT27-SGTKEY-U

The GT27-SGTKEY-U is a USB license key offered by Mitsubishi specifically for the GOT2000 series. It is essential for enabling software to function on compatible PCs, ensuring its accessibility and operation.

Technical specifications for GT27-SGTKEY-U

Manufacturer Mitsubishi

Product Type USB license key

Product Line GOT2000

Part Number GT27-SGTKEY-U

Weight 12.00 lbs (5.44 kg)

Application Enables GT software usage on PCs

Supported Series GOT2000 terminals

License Key Type USB-A connector license key

Number of Licenses 1

Conformance Standards CE (EMC), CE (RoHS), KC

PC Requirement Personal computer with USB-A port

Operating Temperature 0 to 55 degrees Celsius

Storage Temperature -20 to 60 degrees Celsius

Ambient Relative Humidity 10% to 90%, non-condensing

### Description

With the GT27-SGTKEY-U, Mitsubishi delivers a USB license key tailored for the GOT2000 series of terminals. This component is required for activating software on PCs, and it provides simple implementation through a USB-A connection. Designed for user convenience, it allows the use of the software after installation.

This license key supports a single license and complies with key industrial standards, including the CE (EMC), CE (RoHS), and KC standards. To ensure optimal functioning, users must connect it to personal computers with a USB-A port.

The GT27-SGTKEY-U license key can operate effectively within a temperature spectrum from 0 to 55 degrees Celsius, making it suitable for most environments. Regarding storage, this USB key remains safe within temperatures ranging from -20 to 60 degrees Celsius. Additionally, it is designed to handle a relative humidity range of 10% to 90% without condensing. This flexibility contributes to its utility in diverse settings, adding to its reliability as a key component in Mitsubishi's automation ecosystem.
