

SEW-EURODRIVE BGE1.5

SEW-Eurodrive BGE1.5 | Efficient Brake Rectifier for Rapid Brake Release

Overview

The SEW-Eurodrive BGE1.5 brake rectifier is engineered to provide efficient and rapid brake release for electromagnetic brakes in industrial uses. With electronic switching and overvoltage protection, it helps ensure dependable operation and extended brake life.

Key Features

Input Voltage: 150 – 500 V AC

Holding Current (IHmax): 1.5 A

Function: One-way rectifier with electronic switching

Overvoltage Protection: Integrated varistor

Design: space- saving module well suited for motor terminal box installation

Color: Red

Part Number: 8253854

Technical Specifications

Input Voltage Range: 150 – 500 V AC

Maximum Holding Current: 1.5 A

Protection Class: IP10

Mounting: engineered for installation in motor terminal box

Operating Temperature: – 10 ° C to +60 ° C

Dimensions: Approximately 36 mm × 27 mm × 33.5 mm

Weight: Approximately 0.08 kg
