

SEW-EURODRIVE USB11A

USB11A | Sew | Interface Adaptor, Movidrive to PC

SEW-Eurodrive USB11A | Reliable USB to RS485 Communication for MOVIDRIVE® Systems

Overview

The SEW-Eurodrive USB11A is an USB to RS485 interface adapter engineered for seamless communication between a PC and SEW MOVIDRIVE® inverters. It facilitates parameter setting, diagnostics, and programming using the MOVITOOLS® MotionStudio software. The adapter supports both USB 1.1 and 2.0 standards and comes with all necessary cables for immediate setup.

Key Features

Interface Conversion: USB 1.1/2.0 to RS485

Compatibility: engineered for MOVIDRIVE® MDX60B/61B inverters

Plug-and-Play: Easy connection between PC and drive

Software Included: Comes with MOVITOOLS® MotionStudio for drive configuration

Cables Provided: Includes USB A-B cable and RJ10-RJ10 connection cable

space- saving Design: Lightweight and portable for field use

Robust Construction: Durable build quality for industrial environments

Technical Specifications

Model: USB11A

Part Number: 824 831 1

Communication: USB to RS485

USB Standards Supported: USB 1.1 and USB 2.0

Included Cables:

USB A-B cable (PC to USB11A)
